"The intense low back pain I've experienced for the past 2 weeks is virtually gone. I now feel relieved, rejuvenated, and energetic. I am referring all my family and friends to Quantumwave. Why suffer a second longer than one has to?"

"My son damaged his knee so severely it required surgery. He followed the rehab process faithfully. His surgeon explained it would never be like before and his pain and limited range of motion would be permanent. He used the laser on his knee for a month. He is now pain free and has complete range of motion."

"After years of giving and receiving many forms of bodywork and energy work and meditating I have been stunned at how quickly the laser unwinding session brings me & my clients into Stillpoint. That deep peaceful break in the day is so important but it's hard to get an extra hour to do the other modalities, whereas just a few minutes of laser time can take you to that blissful place. I manage the stress in my life much better when unwinding is part of my daily routine."

"Since 2003 when my husband had a major stroke, he has been unable to speak normally due to a paralyzed right vocal cord. After just a few days of using the Scalar Wave Laser, his voice has improved at least 75% and is getting stronger every day. The numbness in his right thumb no longer bothers him, and he has so much more energy during the day that he no longer needs to take naps to just get through the day."

"I was medically diagnosed with a torn meniscus in my right knee and surgery was prescribed. Since using the Scalar Wave Laser for 3 one-hour sessions, I have observed no more symptoms or popping and burning. I continue to use the laser once a week for 4 mins. I am no longer limping and I feel more confident since the pain has been gone for over two months. I love my laser and so appreciate the healing I have received due to its amazing effective healing technology."

"Our 11-year-old male German Shepherd suffers from hip dysplasia. After using the laser, he could run up the stairs whereas before he couldn't. As well, he could now jump into the back of the truck!"

"I'm a wellness practitioner at a wellness center and one of the treatments I use is a technique that helps patients balance toxic emotions that get trapped in the cells. I've been using the Quantumwave Laser in conjunction with this therapy for the past eight months and have noticed a much deeper, more profound shift in the energy of my patients. I've had patients say "my life has completely changed". They say that they are processing through life from a much quieter place! They say they are much more responsive and not so reactive."

## Cellular Energy is Vital

"The cell is a machine driven by energy. It can thus be approached by studying matter or by studying energy. In every medical tradition before ours, healing was accomplished by moving energy."

**Dr. Albert Georgyl : Medicine Nobel Laureate**

## Our Cells Energy Factories

Mitochondria houses ATP\* which is the energy of the cell. Cold Lasers donate photons which increase Adenosine Triphosphate (ATP) production.

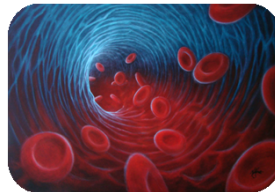

## Sunlight on a Garden

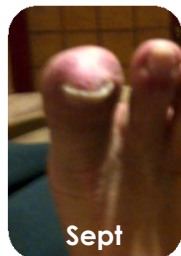

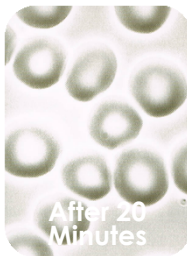

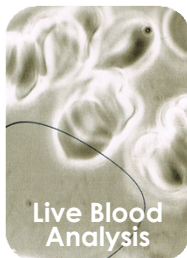

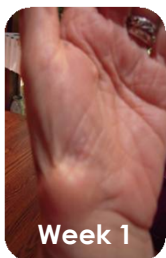

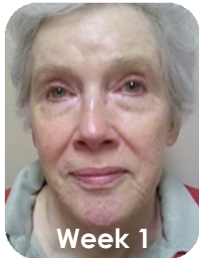

Sunlight delivers photons to plants to grow bigger, healthier fruits and vegetables. More energetic cells = healthier more vibrant cells = more vibrant, healthier body!

## Increased Circulation

Poor blood circulation is one of the main reasons behind many chronic conditions, particularly for those with diabetes. An important benefit of LLLT is increased circulation IMMEDIATELY after use.
