

# Experience Stillpoint

## QiFi has landed

Unique Scalar Instrument offsets stress, EMF pollution and induces stillpoint

Used in thousands of homes, offices, stores, clinics, wellness and yoga centers around the planet

## What is the QiFi

The Quantumfield Inducer, or QiFi, is a revolutionary instrument that induces very subtle scalarwaves to dissolve stress, EMFs, and disharmony from the atmosphere or space of one's home, office, center, practice, or sanctuary

## Neutralizes and Dissolves

The QiFi neutralizes and dissolves disharmonious fields from electricity, WiFi, cell phone towers, smart meters and stress or emotional pollution. It does this by gently inducing subtle scalarwaves, to dissolve challenges and induce stillpoint

## Euphoric Stillpoint Response

Many who have experienced the QiFi share that they notice an immediate and profound sense of euphoria as they dissolve and drop in to stillpoint. This stillpoint response induces people, animals, plants, and one's entire space into a very subtle neutral condition

## Subtle Retreat Sanctuary

The QiFi is a yogic instrument designed to induce a retreat like sanctuary atmosphere wherever it is turned on. It is portable and can be used in different locations. Many use it while travelling in hotels or areas with energetic pollution. It is programmable with six settings to condition any area into stillpoint

## Unique Scalar Technology

This quantumfield energy purification system uses a unique approach to inducing scalar waves that has a subtle stillpoint response. This is done by digitally processing, collapsing and weaving subtle waves through a proprietary crystalline technology. This process opens up space and induces a very subtle opening into the neutral, subtle stillpoint yogic condition

Made in Vermont

- Subtle Scalarwave Technology
- Proprietary Crystalline Technology
- Pre Programmed Settings
- Fine Tuning Capability
- For Home or Office
- Portable
